

Countdown Checklist – 24 hrs to go!

Packing. Aim to get all the packing finished apart from a few essentials in the kitchen and bathroom. Clearly mark boxes with room destination

Dismantle any self-assembly furniture that cannot be moved out in one. Remove any soft furnishings such as curtains that you intend to take with you

Toiletries box. Make up a box in the bathroom and put in the toiletries that you aren't using. Leave this box open to put in all the other toiletries tomorrow morning after everyone has got up and cleaned their teeth, you can then seal it up.

Parking. If you have difficulty parking outside your house, it could be a good idea to park your own car or cars outside so that your removal van will be able to park outside. Remember the van needs more room than its own length to manoeuvre.

Mobile phone. Make sure that your mobile phone is fully charged up for tomorrow, you are probably going to need it.

Contacts List. Make sure you have a copy of your downloaded contacts list for those numbers that you may need!
